Add value. Increase performance

Today's customers demand tight delivery times on short length runs. You need an affordable colour digital press that can more than meet their deadlines, can handle a wide variety of applications and extend your offering with 5th colour opportunities.

The Ricoh Pro™ C7100 and Pro™ C7100X Series are the ideal solutions. They complement offset in terms of image quality and offer high productivity.

The Ricoh Pro™ C7100 Series is a series of 4 colour production presses, models include C7100/C7100S/C7110/C7110S. The Ricoh Pro™ C7100X Series is a series of 5 colour production presses, offering the possibility to print white or clear. Models include C7100X/C7100SX/C7110X/C7110SX.

So they add value as they raise performance and profits.

- Offset-like image quality
- 5th colour opportunities with white and clear gloss toner
- Maximises productivity
- Broad paper support
- Hassle-free operation
- Small footprint

Reduces costs. Improves workflow

High image quality

The latest VCSEL technology combined with new toner and advanced image control technology ensure offset like quality for professional results. So you can depend upon outstanding colour (and mono) output to cut time and costs on shorter run length jobs.

Broad paper handling

With versatile paper handling capability this digital press can support paper weight up to 360gsm and banner sheet printing up to 700mm Simplex. Also the Advanced toner transfer enables printing on textured media.

5th Station function

This digital press offers the ability to print additional colours other than CMYK. Clear gloss and white toner provide more value added applications such as spot gloss, flood, and watermarks along with printing on coloured and clear media. Ideal for high-end work and greater impact on a wide range of jobs including annual reports, catalogues, postcards, direct mail, business and invitation cards, posters, packaging and window clings, etc.

Ease of operation

An easy-to-access Super VGA operational panel with 10.4-inch colour LCD touch panel allows programme short cuts to be set for frequently used job operations. Includes Status Light Pole and Active Tray Indicator so operation can be monitored from a distance and 'on the fly' toner replacement to maximise uptime.

Advanced technology for optimum output

High performance

- The Ricoh Pro™ C7100 models run at up to 80 pages per minute and the Pro™ C7110 models at up to 90ppm in colour and B/W on thick stock (up to 300gsm)
- Paper handling and print quality is improved by advanced toner transfer technology, new elastic fusing belt and advanced image control technology - that ensures colour consistency
- Delivers high productivity in low volume runs helping you meet tight delivery schedules

The latest VCSEL technology

Optimum image quality up to 4800 dpi is ensured by Ricoh's enhanced VCSEL technology. VCSEL has as many as 40 laser beams emitting simultaneously to give exceptionally accurate and smooth image quality.

Uptime maximised

- New liquid cooling system enables extended and continuous printing
- Operators can replace Operator Replaceable Units (ORU) units for maximum uptime
- Status Light Pole – can see operational status even from a distance
- Operational panel features animations for user ease
- 'On the fly' toner replacement enables continuous usage

Expand your opportunities for success

Broad paper support

- Want to start an on-demand print business, bring printing in-house or offer your customers a wider proposition? The Ricoh Pro™ C7100 and Pro™ C7100X Series offers more print opportunities to grow your business and profitability
- Supports from 52 - 360gsm media
- Advanced toner transfer technology ensures superior transferability on textured media

5th Station value added applications

For the Pro™ C7100X Series, the introduction of the new 5th colour Station with clear gloss and white toner provides your business with more value added applications for standout on invitations, annual reports, catalogues, postcards, direct mail, business cards, posters, packaging and window clings.

Target reliability

With the Ricoh Pro™ C7100 and Pro™ C7100X Series you benefit from exceptional reliability and productivity. It offers a lifetime of 14,400K A4 prints or five years and a recommended document volume range of 60 - 140K per month up to a maximum of 240K.

The power for greater performance

Robust functionality for maximum productivity

The Ricoh Pro™ C7100 Series and Pro™ C7100X Series are available with advanced external EFI Fiery servers. With a new user interface and extended functionality, they offer ease-of-use enhancements that help simplify file management and job workflow for greater efficiency.

Increase RIP productivity

The EFI Fiery servers incorporate a high-performance 3.5GHz Intel Xeon processor, extended 2GB x 8 memory and a powerful 500 GB HDD. They enable you to handle complex jobs more easily. They also support the finishing options that you can offer to be more competitive and profitable.

New options. New opportunities

Vacuum Paper Feed

- Air vacuum to handle heavy media with coated surface
- Supports media weight (mainframe specific) 52gsm up to 360gsm
- Delivers air to front and sides of the media so each sheet can be delivered separately
- Offers a high level of feeding accuracy for greater productivity
- Up to three units can be combined

Banner Sheet Tray

- Integrates with the upper tray of the Vacuum Paper Feed
- Paper size: 210 - 330mm x 420 - 700mm
- Media weight 52 up to 300gsm
- Up to 730 sheet capacity dependent on media thickness
- Banner Sheet exit tray included

Multi-Bypass Tray

- Paper size: 100 - 330mm x 139 - 700mm
- Media weight 52 up to 216gsm
- Up to 500 sheet capacity dependent on media thickness

LCT and Active Tray Indicator

- The Large Capacity Trays have easy-to-see Active Tray Indicators
- Paper trays indicate status of paper feed which prevents opening an active tray so avoids possible paper jam
- Allows user to know which trays are not in use so they can be refilled for the next job to speed up operation
- Supports up to 330 x 487mm paper size
- Offers enhanced Paper Feed Capacity
- Air-Assist Paper Feed enables ease of handling of various paper types such as coated paper and paper thickness 52gsm up to 360gsm

More advantages and benefits

Secured tray for valuable papers*

- Paper Trays and optional Stacker unit can be secured with a lock
- Offers extra security for customers such as banks and security companies handling sensitive data
- Opportunity to provide this service to expand your offering

*selected trays

Standard Finisher and Booklet Finisher

- Stack capability: media up to 330 x 487mm
- Media weight: 52 - 360gsm
- Up to 2,500 sheets on Shift Tray (A4/LT, 80gsm)
- 100 sheets staple (B5-A3/215 x 279 - 279 x 431mm, 80gsm)
- Book Finisher offers the same stack capacity with 20 sheet booklet (B5-SRA3/215 x 279 - 330 x 487mm, 90gsm)
- Booklet Finisher has one-side edge trimmer as an option
- Enables creation of professional booklets

Multi-Folding Unit

- Offers six options for paper folding
- Supports from 64gsm to 105gsm including coated paper
- For 2-Fold, 3-Fold In and 3-Fold Out, multi-page folding is available up to three pages from 64 - 89gsm
- Ideal for direct mail opportunities

Increase output with ease

Ring Binder

- Fully automates binding workflow, saving time and labour costs
- Ease of operation as the system processes from printing to closing rings without manual intervention
- Two sizes of consumable rings are available for 50 or 100 A4 sheets
- Cartridge ring holds up to 75 sets and easy to refill
- Black/white coloured rings available

Plockmatic Booklet Maker

- 50 sheet or 35 sheet Production Booklet Making System (80gsm paper)
- Creates high quality 200 page (or 140 page) saddle-stitched and square folded booklets at rated engine speed
- Optional Bleed trim and creasing capabilities eliminate manual processing
- Supports up to 300gsm media - coated or uncoated - for a wide range of applications
- A newly designed precision face trimmer module allows you to trim the shingle effect off the booklet as required for a clean, professional look
- Off-line mode enables manual booklet making from documents produced on other devices

GBC StreamPunch Ultra

- Wide media range - up to 300gsm
- Tab processing on the trailing edge of the sheet
- World's first 'Double Punch' capability supporting a wider variety of standard sizes including A3/DLT
- New Die Set design

Saving time. Speeding up production

Paper Decurl Unit

- The optional Paper Decurl Unit uses two paths to deal with concavity and convexity curls
- It puts an end to the common problem of curling paper in colour especially when printing with high toner coverage, on thin paper and paper with long grain

Buffer Pass Unit

- Prevents toner adhesion/sticking by cooling down the printed paper before it's stacked inside the High Capacity Stacker or Finisher Shift tray
- Puts an end to ruined images or paper ripping when separated saving time and money

High Capacity Stacker

- This new option stacks up to 5,000 sheets (SRA3, A4, LT size) on shift tray and 250 sheets on one proof tray
- Up to two stackers can be attached
- Includes roll-away cart as standard
- Ensures ease of high volume outputs

MAIN SPECIFICATIONS

GENERAL

Technology:	4-drum & 5-drum dry electrostatic transfer
Fusing:	system with internal transfer belt
Toner Type:	Oil less belt-fusing method
Print Speed:	New chemical toner
	Pro™ C7100 models:
	FC (CMYK)/BK 80PPM
	Thick1(52g/m ²) – Thick7(300g/m ²) 80PPM
	Thick8(300g/m ²) – (360g/m ²) 65PPM
	Five colour printing and fifth colour only printing: print speed depends on media characteristics, media settings and the level of toner coverage.
	Pro™ C7110 models:
	FC (CMYK)/BK 90PPM
	Thick1(52g/m ²) – Thick7(300g/m ²) 90PPM
	Thick8(300g/m ²) – (360g/m ²) 75PPM
	Five colour printing and fifth colour only printing: print speed depends on media characteristics, media settings and the level of toner coverage.
Print:	Max 1200 x 4800dpi VCSEL
Warm-up time:	Less than 300 sec.
Dimensions (WxDxH)	Printer version 1,320 x 910 x 1,218mm Copier version 1,320 x 910 x 1,230mm
Weight:	(4 Station) Less than 560/580kg (5 Station) Less than 580/600kg
Power Source:	220-240V, 16A, x2 50/60Hz
Power Consumption:	Less than 5000W
Life:	14,400,000 or 5 years
